Secretary Twamley Says that the Leak

Caused State Street to Settle. In regard to the sinking of the asphala pavement on State street, Fred Twamley, secretary of the board of public works, said yexterday: "It is true that the pavement is troken and depressed. I was down there last night and made a careful examination. What agency has caused the break I am as yet unable to decide. Last De-cember the Hydraul c water mains sprung a leak at the corner of Lafayette street. Both the city and the Hydraulic company shut off the water supply at that time and it was found that the latter's pipes were leaking. repairs were promptly made at that time. It was quite probable that the water undermined the pavement and that when there was any pressure brought to bear on it, it snuk in. The cause can be attributed to one of two The one cited above or the setthing of the sewer trench. The sewer was put in in August and September, 1890. Special precaution was taken to settle the ground, and it was one year before the asphalt was laid. I am of the opinion that the Hydraulic company is responsible for the break. Be ginning at Lafayette street the depression extends west about 100 feet and is from three to four feet wide. It think the asphalt is all right.

ity, were desirious of their selection is one of the four delegates at large rom Michigan to the Republican Na-ional convention at Minneapolis. Unuestionably either of them if chosen vould appreciate the high honor. still another of the active energetic republicans of this city is very warmly in this city, in this portion of the state. and throughout the state, John Patton, Ir., president of the Michigan league of republican clubs is their choice. He has worked earnestly and zealously for republican success for many years, always for others—never has asked or desired any recognition for himself. They urge this fact, and that, as he would accept, now is the fitting time and opportunity to show the apprecia-lion in which those services are held. they will present his name at the Detroit convention and with certainly very fair prospects of success. The work of organization in connection with the league, in which Mr. Patton has been engaged for the past year, is familiar to all active republicans throughout the state, and has been warmly praised.—Last Evening's Eagle.

He is a man of large experience and has held many important civic trusts in the last iwenty years and the people have al-ways found in him a competent and satisfactory official. I do not person-ally know the republican candidates, but understand they are sound men." "Who will be the democratic candidate for governor?"
